D3D, D3D phase 2								
Comments:								
<p>11/29 meeting: Guardian ops update. Total of 61 grids to date. Sediment/settling pond nearly at it's max holding capacity. Working on getting electricity lines to the break trailer. John is working on the new SOW and the grid failure criteria. Advent demobilized. Good communications with ATK. Working on winterizing water lines and tanks. On 12/03 Marian w/TTEMI was on site and took a sample from the southern water tank. On 12/05 the site got approximately three inches of snowfall, no adverse effect on site operations. On 12/06 there was a site meeting with EPA, Guardian, USAE and the property owner.</p>
